## In An Ambulance

### Verse 1

In an ambulance

We were strangers holding hands

And you're my hero

...

You were dressed in green

Tell me where did you come from

In your uniform

### Chorus

My heart went

Oh uh ah x2

And nothing stays the same

I'm in a hurracain

Nothing stays the same

Come save my life again

### Verse 2

I found your note

With your handwritten name on

Does that mean anything

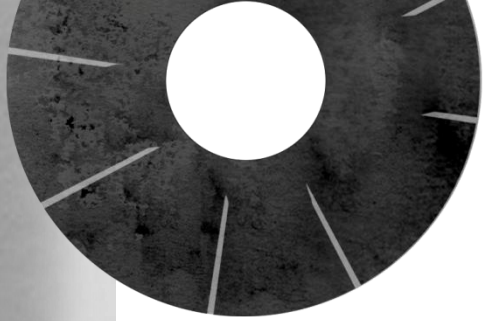

...

I though maybe so

So I sent you a text hello

Hello hello

...

**Chorus**

My heart went

Oh uh ah x2

Nothing stays the same

And nothing stays the same

I'm in a hurracain

Nothing stays the same

Come save my life again

**Bridge**

Is it obvious

I think you're a genius

And I can't hold this down

I can't shut my mouth

Till you kiss it quiet

**Chorus**

My heart went

Oh uh ah x2

And nothing stays the same

I'm in a hurracain

Nothing stays the same

Come save my life again
